

SELL | SETUP | SUPPORT | SCALE

## WE GROW YOUR BUSINESS, FAST.

We are the UK's leading growth scaler for B2B Technology companies looking to launch or accelerate their business quickly, successfully and cost effectively. Our team of Central London based professionals work alongside your existing business, bringing local scale across sales, marketing, setup and support.

This allows your business to expand into the UK, while reducing risk, maximising return on investment and accelerating your time to market.

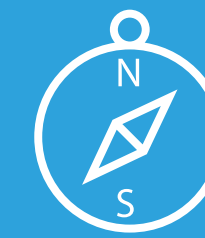

## PROVEN GLOBAL SUCCESS

- ✓ We took a marketing platform from Germany with no UK presence to over £3 million in revenue with blue chip clients & helped secure VC investment.
- ✓ Our proven end-to-end methodology enabled a retail platform from New York to turn a failed UK launch into an outstanding program that achieved 114% of sales targets in the first 90 days.
- ✓ As part of a strategic engagement, an e-commerce platform with 24 months of flat growth was reinvented to deliver 96% year-on-year revenue growth.
